# Slaneyside Kennels Services

## Enclosures Division

The kennel division was created to market a range of modular kennels for domestic, professional and commercial use. They are excellent value for money and of superb quality and flexibility, catering for the needs of the customer.

We offer standard, as well as specialised measures, that are easy to construct.

- Budget Range
- Breeders Choice
- Mesh Panels Range
- Feeding Sets
- Roof Panels
- Dog Cabins
- Vet Bedding

## Boarding Kennels Division

### Accommodation

The kennels consists of 20 purpose built units, each with its own inside and outside covered run. Each individual kennel is heated, insulated, covered and secure. The enclosures are fully secured and under constant supervision. We provide a 24 hour vet service if needed for any of the dogs.

We also have 7 large grass exercise areas where your dog will enjoy regular exercise at intervals of 30 minutes to ensure maximum handling. We cater for sizes and types of dogs, from a Miniature Pincher to the Great Dane.

### Veterinary Care

Any veterinary treatments advised by your vet can be continued whilst your dog is staying with us, including dressing changes and medication. We provide a 24 hour vet service if needed for any of the dogs.

### Opening Times

Our kennels are open all year round to cater for all holiday seasons, on and off peak. Our kennels are open to customers from 9.00a.m to 4.00p.m, 7 days a week.

We are very proud of our kennels, staff and reputation. If you would like to see for yourself, drop in anytime between 9a.m and 4p.m, no appointment necessary.

### Squeegees

Our Squeegees are specially imported from the continent, and are very strong double-bladed foam rubber like scrapers in a metal holder. They come in 3 sizes: 18", 22" and 30", They are marvellous for cleaning out runs, patios etc. after cleaning/ disinfecting. Compared to constant brushing, the Squeegee will get your runs clean and dry instantly - kennel managers tell us that they wouldn't know what to do without them!

|                    |       |
|--------------------|-------|
| Small - 18 inches  | 10.00 |
| Medium - 22 inches | 12.50 |
| Large - 30 inches  | 15.00 |

## Kennel Accessories

### Automatic Water Drinker

Automatic water drinkers, stainless steel nipples are self-service lever operated tilt valves. It is excellent for kennels reducing the need for constant refilling and cleaning of water dish, reduces the risk off bacteria in water, ideal for breeding dogs. The flow switches off when the animal lets go.

|      |     |
|------|-----|
| Cost | POA |
|------|-----|

### Vet Bedding

The ideal pet bedding solution great for keeping pets warm, easy to clean machine washable, ideal for pupping beds available by the roll or by the metre,

|             |                |
|-------------|----------------|
| Vet Bedding | 360 (per roll) |
|-------------|----------------|

### Other Products

|               |       |
|---------------|-------|
| Floor Bracket | 2.00  |
| Roof Bracket  | 14.00 |

## Disinfectants & Deodorisers

### Parvovirucide

Is a one step cleaner/disinfectant, which has been tested and proven by DEFRA to inactivate Parvovirus at dilutions of 200:1. It inactivates virus, bacteria, fungi, moulds, yeasts, mycoplasma and protozoa. Manufactured since 1990 and in that time there have been zero reported cases of Parvovirus by Parvovirucide users.

|          |        |
|----------|--------|
| 1 litre  | 18.50  |
| 5 litre  | 45.00  |
| 20 litre | 185.00 |

### SupaClean

A heavy-duty detergent/steriliser for washing down and cleaning all surfaces, including utensils, feeding/drinking bowls etc. SupaClean should be diluted at 1:100 up to 1:400, making it an extremely economical detergent. A light spraying with SupaClean will make removal of heavy dirt deposits easy, with much less scrubbing and brushing.

|          |       |
|----------|-------|
| 5 litre  | 20.00 |
| 20 litre | 60.00 |

### Odor Kill

A very powerful deodoriser, known for its ability to kill even the strongest smells! Odor-Kill can be sprayed wherever smells persist, not only in kennels or cattery, but in the house where lingering doggy smells, male cat odor, tobacco smells, cooking smells can all be destroyed. A small amount in the Hoover bag will do away with stale dusty vacuum smells.

|          |        |
|----------|--------|
| 1 litre  | 18.50  |
| 5 litre  | 45.00  |
| 20 litre | 185.00 |

## Dog Supplements

### ReVite

Liquid bio-nutritional support for dogs (with 100% fully chelated iron). Revite, when added to the dog's daily diet, will restore and maintain the dog's overall condition. It is ideal for dogs in poor condition, pregnant bitches, stud dogs, bitches with conception problems, and for poor eaters. Revite will maintain all dogs in stunning condition. It's highly palatable formulation, with key vitamins, minerals and micro-nutrients are fully homogenised and ready for rapid absorption by the dog.

|         |       |
|---------|-------|
| 1 litre | 18.50 |
|---------|-------|

### VIT 2000

This totally natural product combines the very latest nutritional developments to ensure your dog develops and maintains peak condition. Vitamin 2000 provides essential nutrients in the correct combinations, vital for muscle structure, growth rate, skin and coat condition, stress, and faeces eating. Vitamin 2000 added daily to the dog's regular food can ensure that the dog is receiving the full daily nutrient requirement essential for health.

|                    |       |
|--------------------|-------|
| Vitamin 2000 500gm | 12.50 |
|--------------------|-------|

### Easy Whelp

A feed supplement to aid normal whelping and lactation in bitches and to increase puppy viability. Many breeders insist on Easy Whelp for trouble free, cleaner whelping. Easy Whelp feed additive is a complete 20 day course. It is added to the bitches' feed 10 days before expected whelping, and continued for 10 days after whelping.

|            |       |
|------------|-------|
| Easy whelp | 12.00 |
|------------|-------|

### Calci Pet

100% meat and bone meal. Pure veterinary inspected meat and bone meal, providing a natural calcium enriched supplement.

|               |       |
|---------------|-------|
| Calci Pet 3kg | 18.50 |
|---------------|-------|

### Hyper Coat

A feed supplement for skin and coat. The constituents of Hyper Coat are known to help the following: healthy skin condition, promote a full and healthy coat, relieve the pain of stiff joints, reduce hyperactivity, prevent itching - break the "itch scratch itch" cycle and reduced hair shedding.

|                    |       |
|--------------------|-------|
| Hyper Coat 1 litre | 18.50 |
|--------------------|-------|

### NutroLac

NutroLac is a complete milk replacer for puppies. Goats Milk has traditionally been the most favoured milk for puppies. It is high in nutrients, and very easy on the young puppy's stomach. Diarrhoea is almost unknown when using Goats Milk, unlike most branded puppy milk replacer which can "clog" the puppy's system leading to digestive upsets, slowing down the growth rate, and making the puppy more prone to disease. NutroLac is very easily mixed, even in cold water, with no lumps. It has high energy content, and is suitable for orphan pups as well as supplementation for puppies and their Dam.

|       |      |
|-------|------|
| 500gm | 7.50 |
|-------|------|

## Dog Supplements

### Calci Care

A liquid calcium supplement. Using a liquid supplement means that the calcium is absorbed more rapidly and completely by the animal.

|         |       |
|---------|-------|
| 1 litre | 22.00 |
|---------|-------|

### Devil's Claw

A liquid form of this amazing herbal root. Used to attain and maintain healthy joints while avoiding debilitating side effects.

|         |       |
|---------|-------|
| 1 litre | 23.00 |
|---------|-------|

### Proxyme

A Probiotic feed additive. Probiotics are naturally occurring cultures of specific strains of beneficial bacteria. These organisms work together in the gut to assist lactic acid production, producing digestive enzymes to aid normal gut function, aiding the immune system, and helping to supply vitamins, nutrients and trace elements. Their most important function is to control the microbial balance in the intestine, literally crowding out harmful organisms such as E-Coli, Salmonella etc. Immediately after birth, various organisms begin to colonise the gut - if these beneficial organisms can be persuaded to establish themselves first, then the gut and consequently the whole animal's health will greatly benefit - often throughout its lifetime.

|      |       |
|------|-------|
| 500g | 17.00 |
|------|-------|

### Herbal - Raspberry Leaf

Liquid traditionally used for pregnant bitches in order to facilitate a successful whelping.

|                         |       |
|-------------------------|-------|
| Herbal - Raspberry Leaf | 21.00 |
|-------------------------|-------|

### Tram Tranquil

A calmer based on an aqueous infusion of Valerian. May help with unwelcome behavioural problems caused by a dog's excessive high spirits.

|      |       |
|------|-------|
| 500g | 20.00 |
|------|-------|

### Strength from the Sea

Seaweed is probably one of the richest forms of plant life available. Our Sea Minerals are 100% kelp, harvested in pollution-free seas.

|     |       |
|-----|-------|
| 1kg | 15.00 |
|-----|-------|
